PROJECTOR CONNECTION

PROJECTION DISTANCE & SIZE

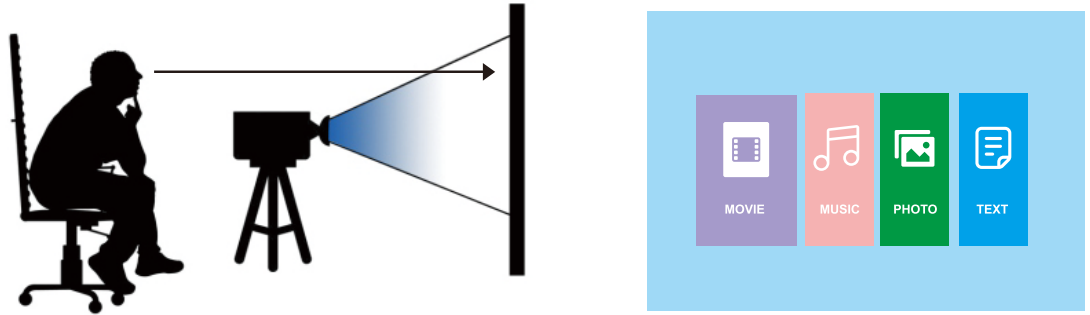

The Recommended projection screen is around 85 inches with a projection distance of around 9.84ft. Ambient darkness will improve the clarity of the projected images.

PROJECTION METHODS

4 Projection methods: Depending on how you place the projector, you may need to change the projection mode so your images will be projected correctly.

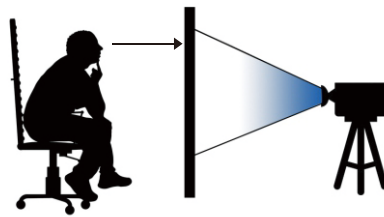

1.1 Factory defaults: The Projector is mounted on the same side of the same side of the screen as the viewer

Front Projection

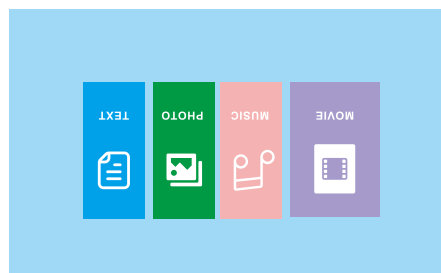

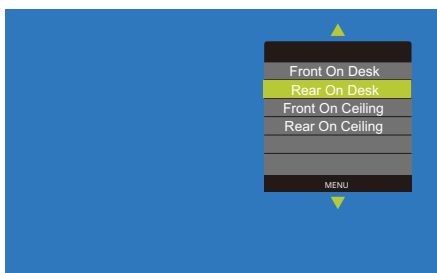

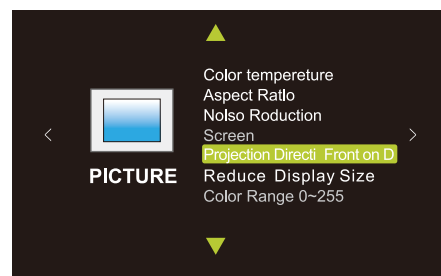

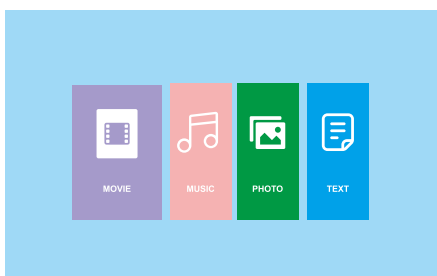

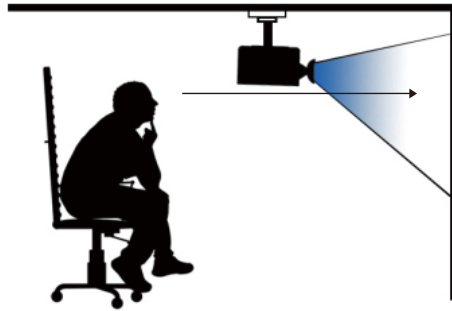

1.2 Rear: The installation position of the projector and the audience are located on the two side of the screen.

You can change the projection mode to rear with the remote control by clicking MENU > SETTING > PROJECTION MODE (Rear on Desk) as the following pictures show.

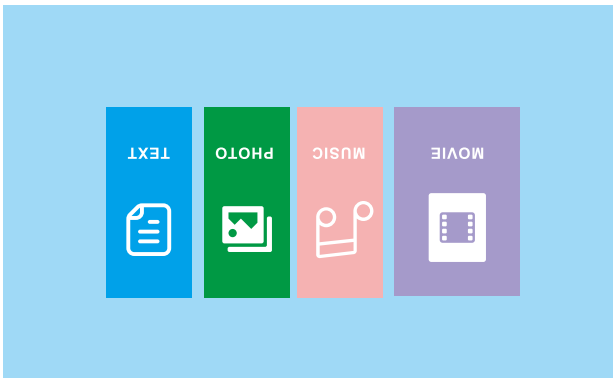

Rear

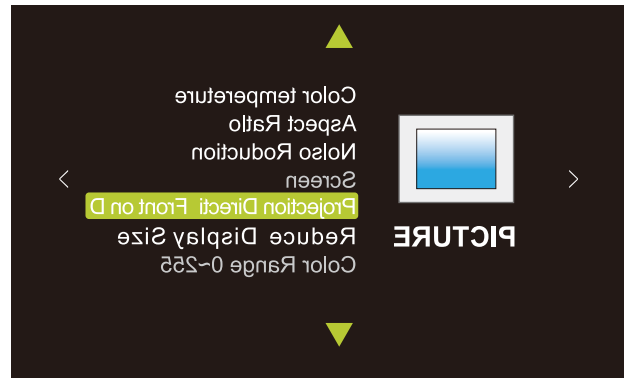

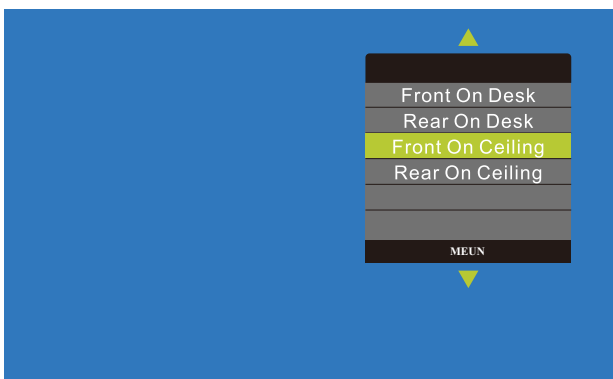

1.3 Front/Ceiling
